MESSAGE FROM THE STATE SUPERINTENDENT OF EDUCATION

To: The Honorable Haley Barbour, Governor
The Honorable Phil Bryant, Lieutenant Governor
The Honorable Billy McCoy, Speaker of the House
The Honorable Members of the Mississippi Legislature
The Honorable Statewide Elected Officials
The Citizens of Mississippi

I am pleased to submit to you on behalf of the Mississippi Board of Education (MBE), the Annual Report of the State Superintendent of Education for the 2009-2010 academic school year. In accordance with the requirements of Section 37-3-11 of the Mississippi Code of 1972, Annotated, this report contains pertinent financial, statistical and other important information at the state and local district levels for your review.

The Board, with advice from the State Superintendent of Education, establishes and maintains a system-wide plan of performance, policy and direction of public education. The Board adopts and maintains a curriculum and a course of study to be used in the public schools that is designed to prepare the state's children and youth to be productive, informed, creative citizens, workers and most importantly, leaders. The Board also regulates all matters arising in the practical administration of the school system not otherwise provided for and regulates issues such as curriculum, teacher standards and certification, student testing, accountability and school accreditation.

On behalf of the Board, myself and the staff of the Mississippi Department of Education, thank you for the work that you have done and will continue to do to improve the education opportunities in our great state. I look forward to working with you this year in support of our public schools, teachers, students and communities.

If you would like to view this report online, please visit www.mde.k12.ms.us. Please do not hesitate to call upon me or my staff to further assist you regarding the contents of this annual report or any other education information that you may need.

Sincerely,
Tom Burnham, Ed.D

Mississippi State Board of Education

Vocational Education

OFFICE OF VOCATIONAL EDUCATION AND WORKFORCE DEVELOPMENT

Career and technical education programs administered by the Office of Vocational Education and Workforce Development (OVE&WD) prepare all students for new jobs, roles, technologies, and responsibilities in order to develop a competent workforce to support and enhance Mississippi's economy. The delivery system is effective and responsive to changing needs of business and industry. OVE&WD programs are part of an integrated educational delivery system that accommodates every secondary and postsecondary school district and provided instructional services to 168,785 Mississippians last year.

Career and technical programs in secondary, postsecondary, short-term adult, industry training, and business and industry partnership settings, enable students to acquire needed skills and abilities and achieve their educational and occupational goals. Programs include: Agriculture, Family & Consumer Sciences, Marketing, Trade and Industrial Education, Cooperative Education, Health, Technical Education, Business Education, Science and Technology, and Short Term Adult Programs to meet local needs.

Secondary Programs:

Two hundred forty four (244) Career Discovery programs introduced 20,901 seventh grade students to career opportunities and the skills needed to develop and implement individual student career/educational plans that reflect student aptitudes, interests, and abilities. The programs provide experiences and activities that promote self-awareness, career exploration, and educational planning related to student's educational and occupational plans.

Two hundred seventy (270) Computer Discovery programs exposed 22,289 eighth grade students to a multimedia environment in which they developed computer skills, keyboarding, using operating systems (Windows), and file management. Real-world applications in word processing, graphics, databases, telecommunications, spreadsheets, and desktop publishing make the course exciting, relevant, and challenging.

One hundred eighty one (181) Technology Discovery programs enabled 13,745 ninth grade students to explore technology resources, processes, and systems that lead to enhanced career development and advanced education. Students learned through researching, visualizing, modeling, designing, simulating, prototyping, keeping journals, preparing and making presentations and demonstrations, problem-solving, role-playing, and testing.

One hundred and four (104) Information and Communication Tech I (ICTI) programs served 8,736 seventh grade students and Ninety Eight (98) Information and Communication Tech II (ICTII) programs served 8,355 eight grade students.

One hundred and four (104) Science, Technology, Engineering, and Math (STEM) programs served 9,237 ninth grade students.

The comprehensive career planning/counseling component of Tech Prep organizes and expands career development strategies, activities, and experiences and assists all students in making realistic, achievable career plans. The career plans initiated in the seventh grade and updated annually through the twelfth grade help keep students focused on their goals.

Forty three (43) Introduction to Agriculture Science programs served 1,322 students.

Two hundred twenty four (224) Family and Consumer Sciences Programs funded through H.B. 1467 served 43,536 unduplicated students. Some students enrolled in more than one of the course offerings that included Family Dynamics in 9th through 12th grades and other, optional, courses such as Child Development, Family/Individual Health, Family Living & Parenthood, Foods & Nutrition, Nutrition & Wellness, Personal Development, and Resource Management.

Sixty (60) Technology Applications I and Technology Applications II programs served 719 students.

Secondary occupational programs provide for the development of essential, program area specific, occupational, and entrepreneurial skills for students in grades ten through twelve. Instruction in these programs incorporates structured learning activities that integrate vocational and academic objectives. Upon program completion, individuals possess marketable job skills and may enter the workforce or pursue postsecondary education, in directly related or indirectly related occupational and technical areas with possibilities for advanced placement, or other postsecondary offerings.

One thousand two hundred eighty nine (1,289) secondary occupational programs served 23,178 students.

POSTSECONDARY PROGRAMS AND ENROLLMENT 2009-2010

Postsecondary programs provide beginning, advanced, and technical, program area specific, occupational and entrepreneurial preparation for skilled/technical occupations. These programs reflect current and emerging technologies and address the needs of industry and other employers. State-of-the-art technology used in industry and integrated academic components are incorporated in the curriculum. Upon completion of a postsecondary occupational program, individuals are prepared to enter skilled/technical level occupations.

In FY2010 (2009-2010), Three hundred seventy-two (372) postsecondary programs served 16,767 (sixteen thousands seven hundred and sixty-seven) students.

Postsecondary Occupational Programs and Enrollments In Classification of Instructional Programs (CIP) Code Numerical Order

CIP CODE	Program Name	# Programs	Enrollment
10102	Agriculture Business Management, General	3	39
10299	Agriculture Mechanics Technology	2	36
10601	Horticulture	2	22
10605	Landscaping Management Technology	2	48
10607	Golf and Turf Management	1	13

Short-Term Adult Programs:

In 2009 - 2010, one hundred ninety-one (191) state funded short-term adult classes were conducted by secondary institutions serving two thousand eight hundred seven (2,807) students.

Eighty (80) federally funded short-term adult programs conducted by secondary and postsecondary districts served one thousand three hundred seven (1,307) adult students.

Accountability and Assessment:

The Mississippi Department of Education Office of Student Assessment, in cooperation with the OVE&WD, has developed and implemented a customized vocational assessment program, Mississippi Career Planning and Assessment System (MS-CPAS), which is used to determine progress in attaining educational goals. MS-CPAS is comprised of a number of occupation-specific examinations developed by the Mississippi State Research and Curriculum Unit (RCU) for use in measuring occupational knowledge and skills. The CPAS exams were printed and scored by the Research and Curriculum unit. The occupation-specific examinations are each tailored to correspond to specific vocational-technical programs within the Mississippi Curriculum Framework.
